Do you want to find out how tech-based research gets translated to the marketplace? And would you like an opportunity to get to do it working in collaboration with faculty in a research lab? If so, UConn’s Experiential Entrepreneurship Research Experience for Undergraduates is for you!

**E²REU Is:**
A 10-week summer integrated, hands on, laboratory research and entrepreneurship training experience for undergraduates.

**Students Will:**
- Learn from successful entrepreneurs what it takes to build a viable technology product and startup venture.
- Participate in laboratory research that can lead to commercializable technologies.

**Eligibility:**
This program is for entrepreneurial-minded students entering junior or senior year at Connecticut institutions. Please visit [ee-reu.engr.uconn.edu](http://ee-reu.engr.uconn.edu) to apply online.

**Application Deadline:** March 16, 2020
Your application **must** include:
- Letter of reference (1 page max)
- Your current resume (1 page max)
- Personal statement (300 words max)
